ANTES DE EMPEZAR

Pedir bien es nombrar bien.

Si le dices a la Inteligencia Artificial "hazme una web bonita", te da lo mismo que a todo el mundo. Si le dices **"hero con video, bento grid para el menú y reseñas en marquee"**, te da exactamente eso. Ten esta guía a mano, busca lo que quieres y cópialo en 1 clic.

1

Selecciona el prompt y cópialo. En **tucreador.windowstelecom.com** se copia con un clic e inyecta tu ADN de Marca.

2

Donde diga **[PRODUCT]** o **[MARCA]**, cámbialo por lo que vendes (o guárdalo una vez en Nivel 1).

3

Sube del **Nivel 1 (Cero)** al **Nivel 4 (Pro)** y usa **Video Studio Pro** para crear reels virales 9:16.

01 **El diccionario** 03
71 términos UI visuales (100 bloques con Full-Stack OS).

02 **Prompts por rubro** 21
12 webs y 8 apps completas en 1920px y 390px.

03 **Cómo se arma un prompt** 41
Las 6 piezas esenciales y 5 reglas para pedir mejor.

04 **La fórmula nivel 100** 43
Arma tu propio prompt profesional en 6 decisiones.

05 **Fotos de producto** 44
54 estilos 35mm en 6 rubros con inyección [PRODUCT].

06 **Errores que delatan** 56
12 errores típicos de IA (✕) y cómo arreglarlos (✓).

07 **10 reglas para que venda** 59
Checklist comercial y técnico mínimo de tu web.

08 **QA Móvil (20 Teléfonos IA)** v5.0 60
Mobile Agent Testers + auditoría táctil scripts/a11y.py.

09 **Mapa Visual del Código** v5.0 61
Understand Anything (94k★) + análisis /understand-diff.

10 **Antislop UI & Copy Humano** v5.0 62
9Router PR #4506 integrado gratis en el Constructor.

11 **24 Skills 1-Clic & 4 Niveles** v5.0 63
Catálogo Open-Source completo + ruta Cero → Pro.

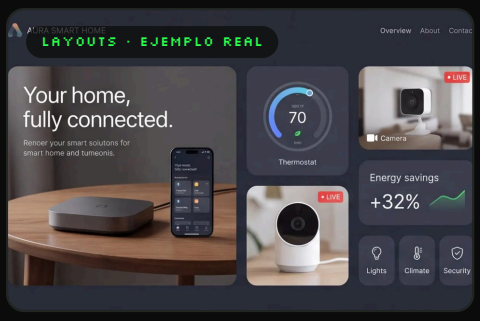
12 **Video Studio Pro & Kit .MD** v5.0 64
8 Agentes, Remotion, FFmpeg -14 LUFS y tucreador-kit/.

01

El diccionario

El nombre real de cada parte de una web, cómo se ve y el prompt para pedirla. Ordenado por categoría.

LAYOUTS



Bento grid

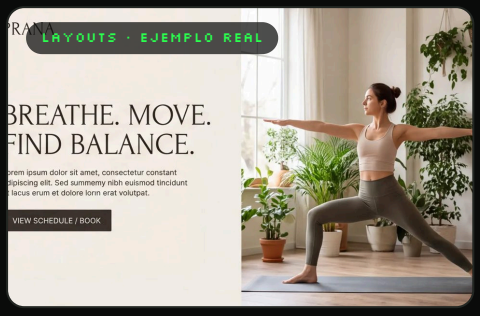
01

Le dicen: los cuadritos de distintos tamaños

Tarjetas de varios tamaños encajadas como una lonchera japonesa. Muestra muchas cosas sin que se vea desordenado.

PROMPT

```
Use a bento grid layout: asymmetric cards of different sizes on a
4-column grid, 24px rounded corners, 16px gaps, one large featured
card.
```



Split screen

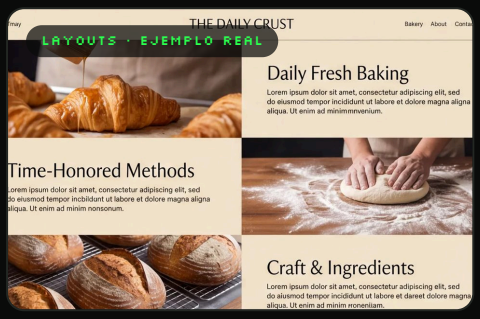
02

Le dicen: mitad y mitad

La pantalla dividida en dos: texto de un lado, imagen del otro.

PROMPT

```
Split-screen hero, 50/50: headline, subheadline and CTA on the
left, full-height image on the right.
```



Zigzag layout

03

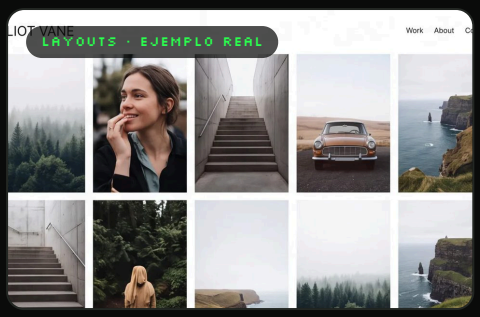
Le dicen: imagen y texto alternados

Bloques que van alternando: imagen a la izquierda, luego a la derecha. Ideal para explicar beneficios.

PROMPT

```
Alternating zigzag feature sections: image left and text right,
then reversed, 3 rows, 120px between rows.
```

LAYOUTS



Masonry grid

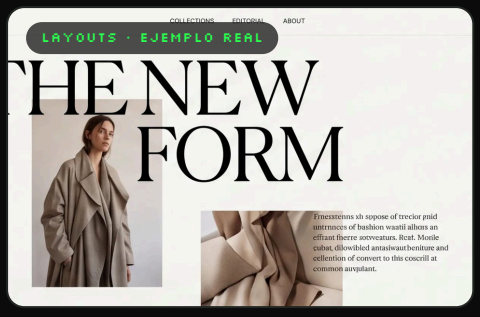
04

Le dicen: estilo Pinterest

Columnas de imágenes con alturas distintas que se apilan sin huecos.

PROMPT

```
Masonry image grid: 4 columns on desktop, 2 on mobile, varied image heights, 12px gaps, no cropping.
```



Broken grid

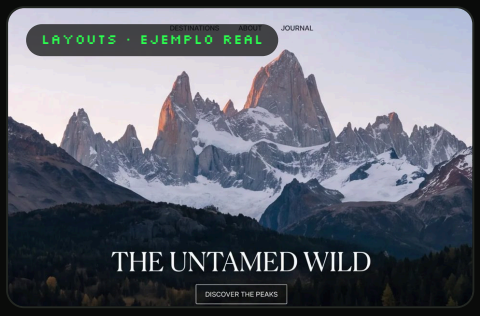
05

Le dicen: desordenado a propósito

Imágenes y textos que se salen de la retícula y se superponen. Se ve editorial y de revista.

PROMPT

```
Broken-grid editorial layout: overlapping images and text blocks, intentional asymmetry, oversized headline crossing an image, generous whitespace.
```



Full-bleed

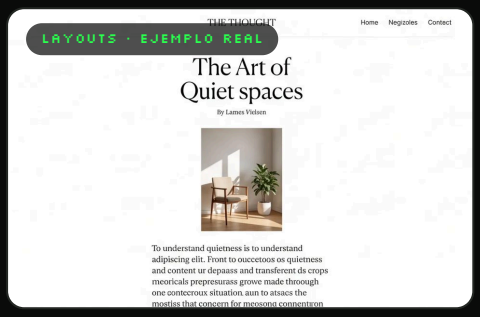
06

Le dicen: de borde a borde

Una imagen o sección que toca los dos bordes de la pantalla, sin márgenes.

PROMPT

```
Full-bleed sections: images edge to edge with no side margins, text constrained to a centered 720px column.
```



Single column

07

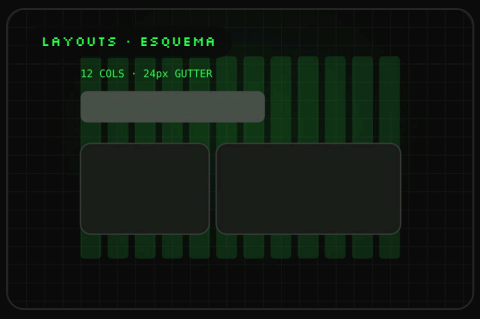
Le dicen: una sola columna

Todo en una columna centrada, como un artículo. Fácil de leer en cualquier pantalla.

PROMPT

```
Single-column long-form layout: max-width 680px, centered, line-height 1.6, 96px spacing between sections.
```

LAYOUTS



12-column grid

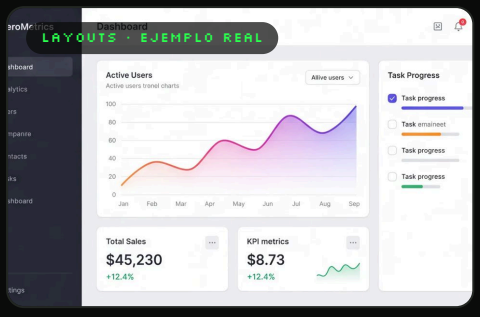
08

Le dicen: la retícula

Una cuadrícula invisible de 12 columnas a la que todo se alinea. Es la razón por la que una web se ve "ordenada".

PROMPT

```
Align every element to a 12-column grid with 24px gutters and 80px side margins on desktop, 4 columns on mobile.
```



Sidebar layout

09

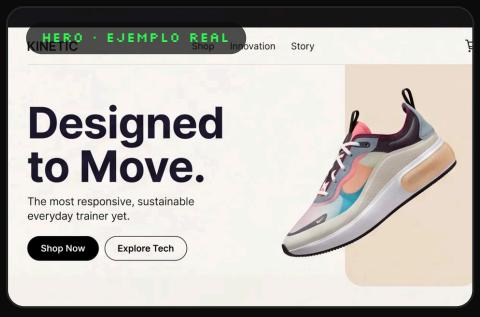
Le dicen: la barra lateral

Navegación fija a un lado y el contenido a la derecha. Típico de dashboards y apps web.

PROMPT

```
App layout with a fixed 260px left sidebar navigation (icons + labels) and a scrollable main content area with cards.
```

HERO



Hero section

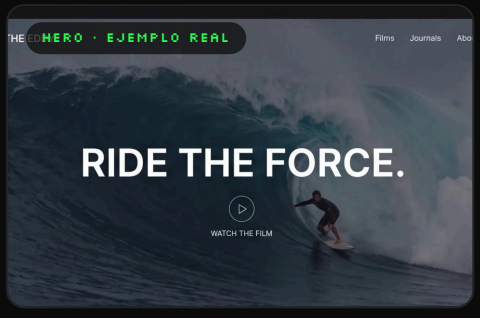
10

Le dicen: la portada de la web

Lo primero que ves. Tiene que decir qué es, para quién y qué hacer, en menos de 5 segundos.

PROMPT

```
Hero section: headline of max 8 words stating the benefit, one-line subheadline, primary CTA button and a secondary text link, product image on the right.
```



Video hero

11

Le dicen: video de fondo

Un video corto en loop detrás del titular. Transmite ambiente al instante (restaurantes, hoteles, eventos).

PROMPT

```
Full-screen video hero: muted autoplay looping background video, 40% dark overlay, centered headline and one CTA.
```

HERO

Typographic hero

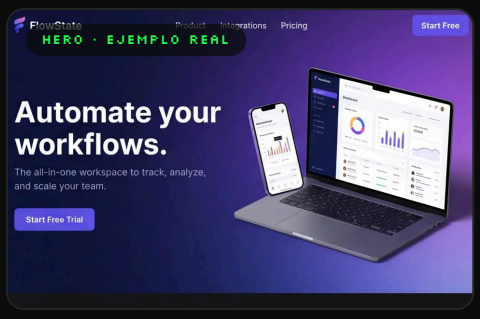
12

Le dicen: solo letras gigantes

Sin imagen: un titular enorme que hace todo el trabajo. Muy usado en portafolios y estudios.

PROMPT

```
Typographic hero: oversized headline at 160px in an extra-wide grotesk font, no image, small details and labels in a monospace font.
```



Product mockup hero

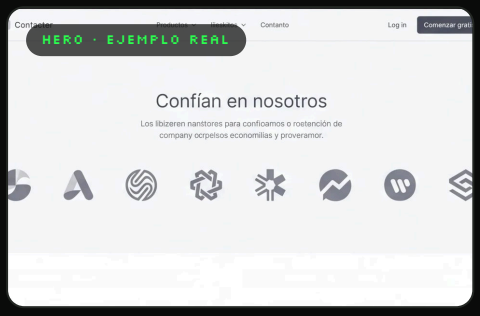
13

Le dicen: el producto en un dispositivo

El producto real dentro de un teléfono o laptop, con tarjetas flotando alrededor.

PROMPT

```
Hero with a device mockup tilted 12° showing the app, 3 floating UI cards around it with soft shadows.
```



Logo cloud

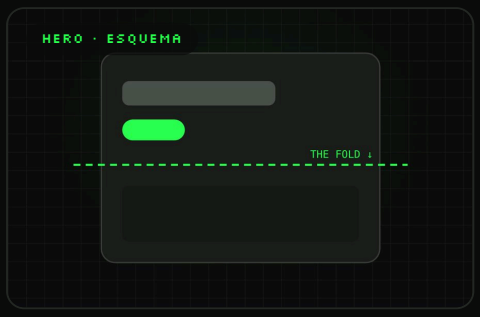
14

Le dicen: los logos de clientes

Una fila de logos de marcas que confían en ti, justo debajo del hero. Da confianza en un segundo.

PROMPT

```
Logo cloud below the hero: "Trusted by" label and 6 grayscale client logos in a row, 50% opacity, full color on hover.
```



Above the fold

15

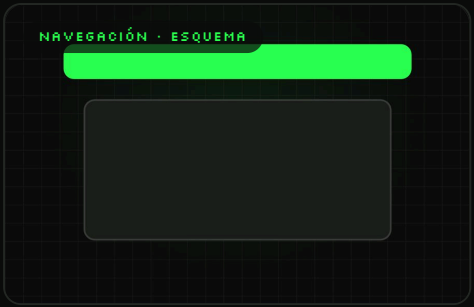
Le dicen: lo que se ve sin hacer scroll

La parte de la web que se ve al abrirla, sin bajar. Ahí tiene que estar tu propuesta y tu botón principal.

PROMPT

```
Keep the value proposition and the primary CTA above the fold on 1920×1080 desktop and 390×844 mobile.
```

NAVEGACIÓN



Sticky header

16

Le dicen: el menú que te sigue

La barra de arriba se queda fija al bajar. Bien hecha, se achica y se vuelve translúcida.

PROMPT

```
Sticky header that shrinks from 88px to 64px and gets a blurred
translucent background (backdrop-filter) after 80px of scroll.
```

Hamburger menu

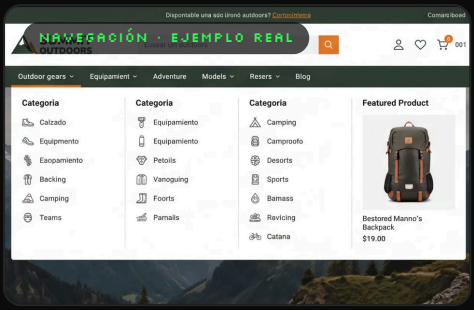
17

Le dicen: las tres rayitas

El ícono de tres líneas que abre el menú en mobile.

PROMPT

```
Mobile hamburger menu that opens a full-screen overlay with large
links and a staggered fade-up animation.
```



Mega menu

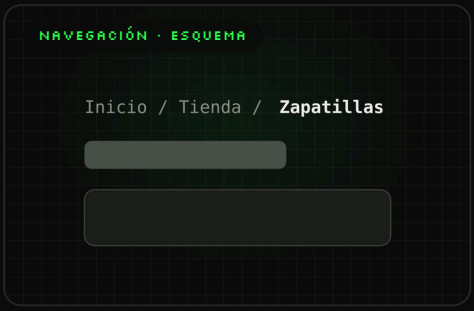
18

Le dicen: el menú gigante

Al pasar por un ítem se abre un panel grande con columnas de links, íconos y una tarjeta destacada.

PROMPT

```
Mega menu on hover: 3 columns of links with icons and short
descriptions, plus a featured card with an image on the right.
```



Breadcrumbs

19

Le dicen: las migas de pan

"Inicio / Tienda / Zapatillas": te dice dónde estás y te deja volver.

PROMPT

```
Breadcrumbs above the page title: Home / Category / Product,
current page in bold, separators in muted gray.
```

NAVEGACIÓN

Scrollspy nav

20

Le dicen: el menú que marca dónde estás

Un índice fijo que se ilumina según la sección que estás leyendo. Como el de esta guía.

PROMPT

```
Sticky in-page navigation that highlights the current section while scrolling (scrollspy), with smooth scroll on click.
```

Fat footer

21

Le dicen: el pie de página completo

El footer con varias columnas de links, newsletter y redes. Es donde la gente va a buscar lo que no encontró.

PROMPT

```
Fat footer with 4 link columns, a newsletter email input, social icons and a legal row with copyright.
```

COMPONENTES

Toast

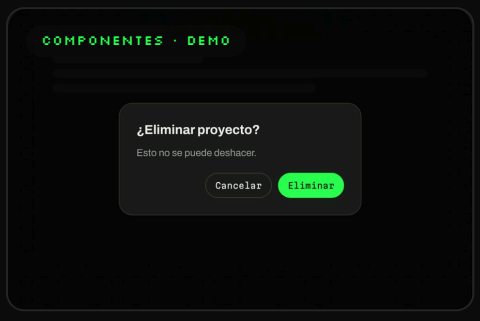
22

Le dicen: la notificación que aparece y se va

Un aviso corto que aparece en una esquina y desaparece solo. No interrumpe nada.

PROMPT

```
Toast notification in the bottom-right corner: icon, one-line message, auto-dismiss after 4 seconds, slide-in animation.
```



Modal dialog

23

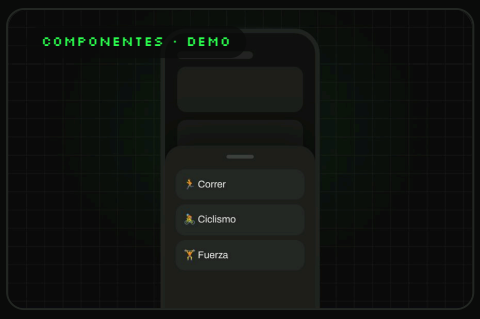
Le dicen: la ventanita que bloquea

El dialog es el componente (la caja que te pregunta algo). Es modal cuando bloquea el resto de la página hasta que respondes.

PROMPT

```
Modal dialog: centered card with title, short text and two buttons, dimmed backdrop that blocks the page, closes with Esc.
```

COMPONENTES



Bottom sheet

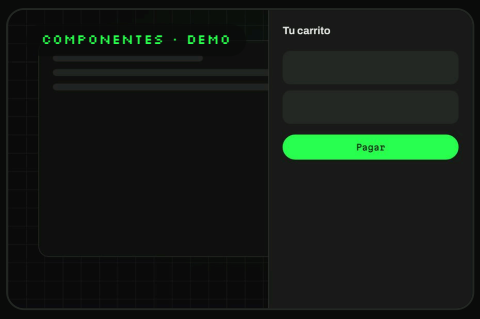
24

Le dicen: el panel que sube desde abajo

Típico de mobile: un panel que sube desde abajo con opciones. Se cierra deslizando hacia abajo.

PROMPT

```
Mobile bottom sheet with a drag handle, rounded top corners 24px,
list of options, swipe down to close.
```



Side drawer

25

Le dicen: el panel que sale de un lado

Un panel que entra desde el costado. Se usa para carritos, filtros y menús.

PROMPT

```
Side drawer that slides in from the right, 420px wide, with header,
scrollable content and a sticky footer button.
```

Tooltip

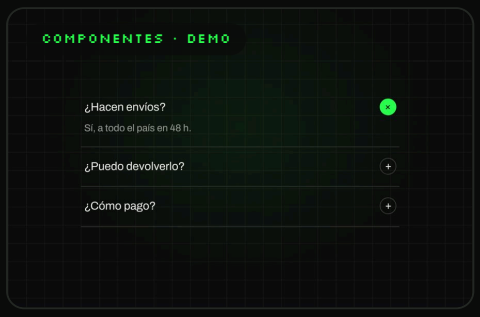
26

Le dicen: el textito al pasar el mouse

Una burbuja con una explicación corta que aparece al pasar el mouse o mantener presionado.

PROMPT

```
Tooltip on hover with 300ms delay, small dark bubble with an arrow,
max 1 line of text.
```



Accordion

27

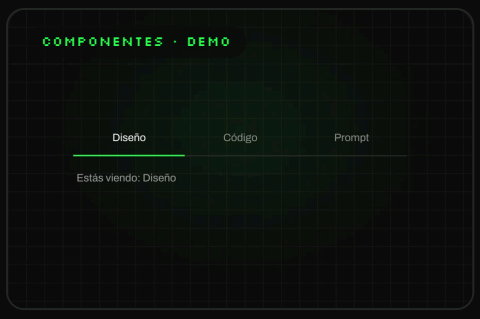
Le dicen: las preguntas que se despliegan

Una lista donde cada ítem se abre y se cierra. El formato clásico de las preguntas frecuentes.

PROMPT

```
FAQ accordion: 6 questions, one open at a time, plus icon that
rotates to a cross, smooth height animation.
```

COMPONENTES



Tabs

28

Le dicen: las pestañas

Varias vistas en el mismo lugar; tocas una pestaña y cambia el contenido.

PROMPT

```
Tabs component with an animated underline indicator that slides to the active tab.
```

Badge

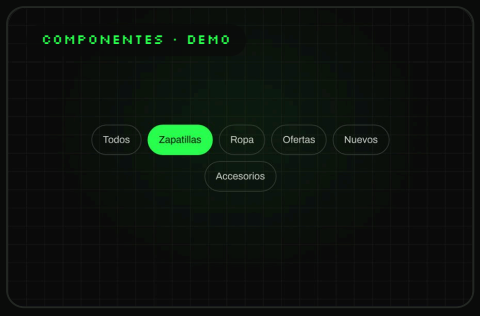
29

Le dicen: la etiquetita o el numerito

Una etiqueta chica para un estado ("Nuevo", "Agotado") o un conteo (3 notificaciones).

PROMPT

```
Status badges: small rounded pill labels ("New", "Sold out") and a red count badge on the bell icon.
```



Chip

30

Le dicen: el filtro en forma de pastilla

Pastillas que se activan y desactivan para filtrar. Muy usadas en tiendas y buscadores.

PROMPT

```
Filter chips row: selectable pill chips with a check icon when active, horizontally scrollable on mobile.
```

Toggle switch

31

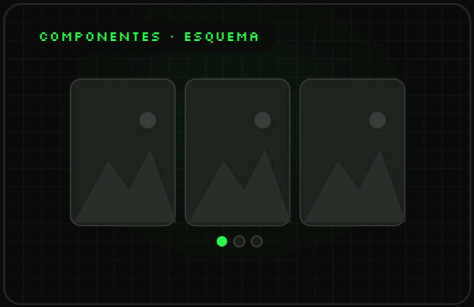
Le dicen: el interruptor

El botón de encendido/apagado. Para opciones que se aplican al instante.

PROMPT

```
iOS-style toggle switch with a smooth knob animation and accent color when on.
```

COMPONENTES



Carousel

32

Le dicen: el carrusel

Elementos que se deslizan de lado. Úsalo con flechas y puntitos para que se entienda que hay más.

PROMPT

```
Horizontal carousel with snap scrolling, arrows on desktop, swipe on mobile, and dot indicators.
```

Skeleton loader

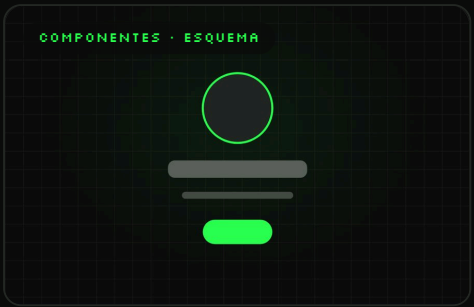
33

Le dicen: la carga gris que brilla

Formas grises que simulan el contenido mientras carga. Se siente más rápido que un spinner.

PROMPT

```
Skeleton loading state: gray placeholder shapes matching the final layout with a shimmer animation.
```



Empty state

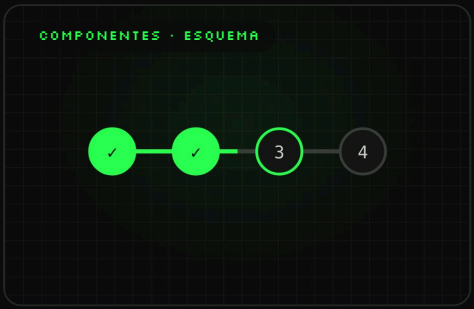
34

Le dicen: la pantalla vacía

Lo que ves cuando no hay nada todavía. Bien diseñado, te dice qué hacer.

PROMPT

```
Empty state: friendly illustration, one-line title, short explanation and one primary action button.
```



Stepper

35

Le dicen: los pasos 1-2-3

Te muestra en qué paso estás de un proceso (checkout, registro).

PROMPT

```
Horizontal stepper with 4 numbered steps, completed steps with a check, the current one highlighted.
```

COMPONENTES

Avatar stack

36

Le dicen: las caritas apiladas

Círculos de fotos superpuestos ("+2.000 alumnos"). Prueba social en poquito espacio.

PROMPT

```
Avatar stack: 5 overlapping circular photos with a white ring and a "+2k" counter bubble.
```

PATRONES DE APP

Tab bar

37

Le dicen: la barra de abajo de las apps

Los 4 o 5 íconos fijos abajo en una app para moverte entre secciones.

PROMPT

```
Bottom tab bar with 5 icons and labels, active tab in accent color with a small pill indicator.
```

Onboarding

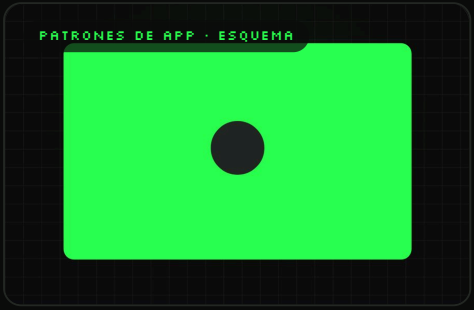
38

Le dicen: las pantallas de bienvenida

Las 3 pantallas que te explican la app la primera vez. Cortas, con una idea cada una.

PROMPT

```
3-step onboarding: full-screen illustrations, one short sentence per screen, progress dots, Skip and Next buttons.
```



Splash screen

39

Le dicen: la pantalla de carga con el logo

Lo que ves un segundo al abrir la app, mientras carga.

PROMPT

```
Splash screen: centered logo on brand color, subtle scale-in animation, max 1.5 seconds.
```

PATRONES DE APP

Pull to refresh

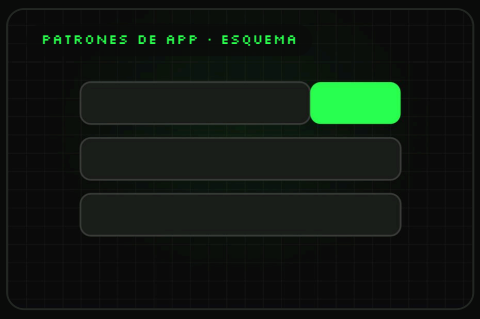
40

Le dicen: jalar para recargar

Deslizas hacia abajo desde arriba y la lista se actualiza.

PROMPT

```
Pull-to-refresh gesture with a custom animated loader at the top of the list.
```



Swipe actions

41

Le dicen: deslizar para borrar

Deslizas un ítem de la lista y aparecen acciones (borrar, archivar).

PROMPT

```
Swipe actions on list items: swipe left reveals red Delete and gray Archive buttons.
```

FAB

42

Le dicen: el botón redondo flotante

Floating Action Button: el botón circular que flota abajo a la derecha para la acción principal.

PROMPT

```
Floating action button (FAB) bottom-right, 56px circle with a plus icon, expands into 3 mini actions on tap.
```

Segmented control

43

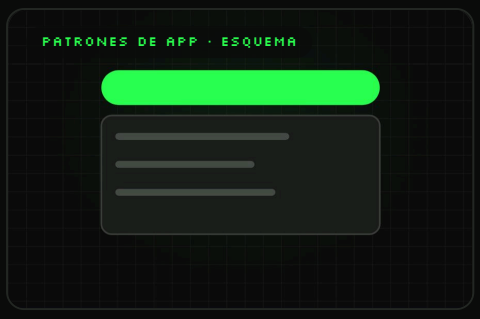
Le dicen: el selector de opciones pegadas

Dos o tres opciones pegadas en una sola pastilla ("Mensual | Anual").

PROMPT

```
Segmented control with 2 options (Monthly | Yearly) and a sliding highlighted background.
```

PATRONES DE APP



Autocomplete search

44

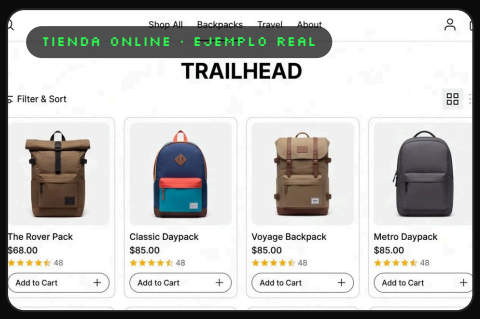
Le dicen: el buscador que sugiere

Mientras escribes, te va sugiriendo resultados.

PROMPT

```
Search bar with autocomplete: suggestions dropdown with recent
searches, matched text in bold.
```

TIENDA ONLINE



Product card

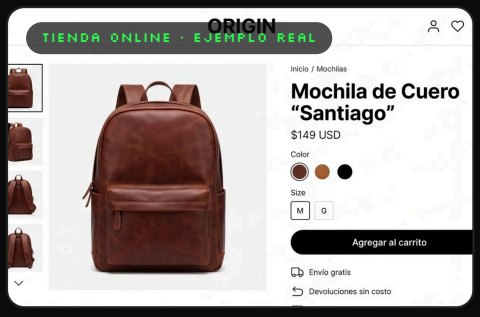
45

Le dicen: la tarjeta del producto

Foto, nombre, precio y botón. Es la pieza más repetida de cualquier tienda.

PROMPT

```
Product card: 4:5 image with a second image on hover, name, price,
rating stars and a quick-add button.
```



PDP

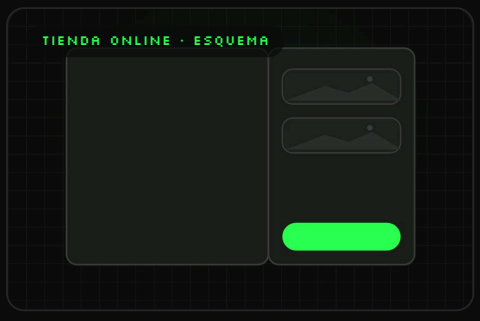
46

Le dicen: la página del producto

Product Detail Page: la página de un producto con galería, precio, variantes y botón de compra.

PROMPT

```
Product detail page (PDP): image gallery with thumbnails on the
left, title, price, size selector, add-to-cart and reviews on the
right.
```



Cart drawer

47

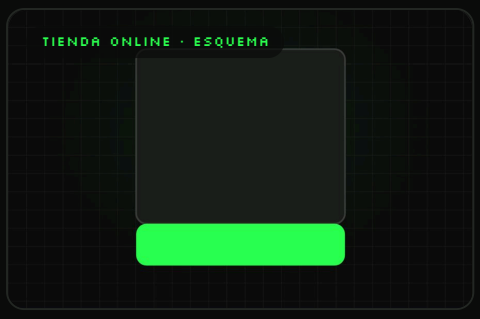
Le dicen: el carrito que sale de un lado

El carrito se abre en un panel lateral sin sacarte de la página.

PROMPT

```
Slide-out cart drawer: line items with thumbnails, quantity
steppers, subtotal, free-shipping progress bar and checkout button.
```

TIENDA ONLINE



Sticky add-to-cart

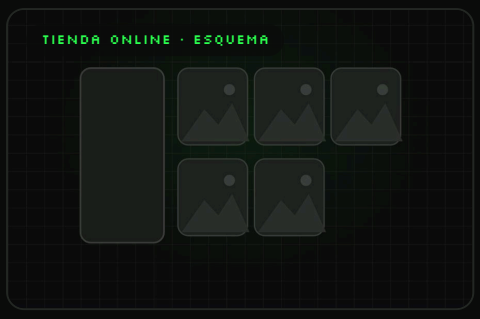
48

Le dicen: el botón de compra que te sigue

En mobile, el botón de comprar queda fijo abajo mientras lees.

PROMPT

```
Sticky add-to-cart bar fixed at the bottom on mobile with product
thumbnail, price and the buy button.
```



Faceted filters

49

Le dicen: los filtros de la tienda

Filtros por talla, color, precio, que se combinan entre sí.

PROMPT

```
Faceted filters sidebar: collapsible groups for size, color
swatches and a price range slider, with active filters as removable
chips.
```

Cross-sell

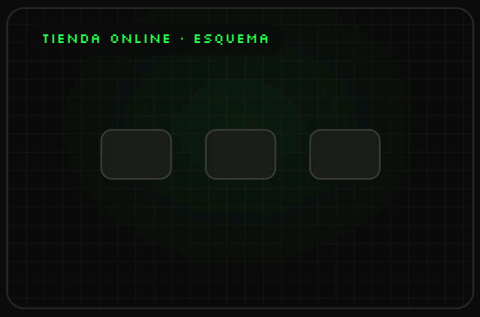
50

Le dicen: "también te puede gustar"

Productos relacionados para que agreguen algo más al carrito.

PROMPT

```
Cross-sell carousel "You may also like" with 4 related product
cards under the product details.
```



Trust badges

51

Le dicen: los sellos de confianza

Íconos de pago seguro, envío y devoluciones cerca del botón de compra.

PROMPT

```
Trust badges row under the buy button: secure payment, free
shipping, 30-day returns, with simple line icons.
```

ANIMACIONES

Hover state

52

Le dicen: lo que pasa al pasar el mouse

El cambio que hace un botón o tarjeta cuando pasas el mouse. Le dice al usuario "esto se toca".

PROMPT

```
Hover states on all interactive elements: buttons lift 2px with a stronger shadow, cards scale to 1.02, 200ms ease-out.
```

Microinteraction

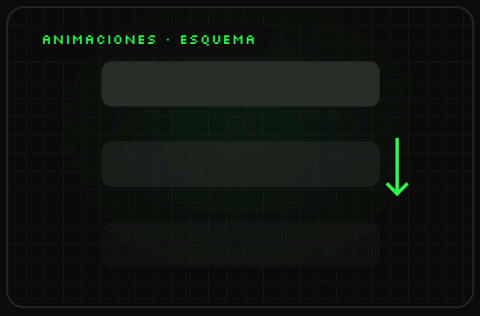
53

Le dicen: la animación chiquita al tocar algo

Pequeñas animaciones de respuesta: el corazón que late al dar like, el check que se dibuja.

PROMPT

```
Microinteraction on the like button: heart scales with a bounce and bursts small particles when tapped.
```



Scroll reveal

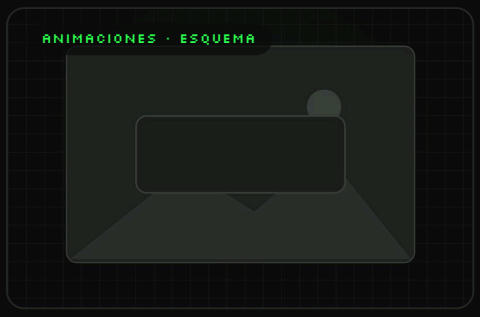
54

Le dicen: cosas que aparecen al bajar

Los elementos entran (suben y aparecen) cuando llegas a ellos.

PROMPT

```
Scroll reveal: elements fade in and move up 24px when they enter the viewport, staggered by 80ms.
```



Parallax

55

Le dicen: el fondo que va más lento

Capas que se mueven a distintas velocidades al hacer scroll. Da profundidad.

PROMPT

```
Subtle parallax: background image moves at 0.5x scroll speed behind the foreground content.
```

ANIMACIONES

Marquee

56

Le dicen: el texto que pasa solo

Una franja de texto o logos que se desplaza en loop infinito.

PROMPT

```
Infinite marquee strip with large text and separators, constant
speed, pauses on hover.
```

Scroll-driven animation

57

Le dicen: la animación que avanza con el scroll

La animación avanza y retrocede según cuánto bajes. El producto que gira mientras scrolleas.

PROMPT

```
Scroll-driven animation: the product rotates and the background
changes color as the user scrolls through a pinned section.
```

Pinned section

58

Le dicen: la sección que se queda pegada

Una sección se queda fija mientras su contenido cambia, y luego sigue el scroll.

PROMPT

```
Pinned (sticky) section: left text stays fixed while images on the
right scroll and swap.
```

Magnetic button

59

Le dicen: el botón que sigue al mouse

El botón se mueve un poquito hacia el cursor cuando te acercas. Muy de webs premiadas.

PROMPT

```
Magnetic button: moves up to 10px toward the cursor when it is
within 80px, springs back on leave.
```

ANIMACIONES

Text reveal

60

Le dicen: el texto que aparece letra por letra

Los titulares aparecen por palabras o letras, como si se escribieran o subieran desde una máscara.

PROMPT

```
Headline text reveal: words slide up from a mask one by one on load, 60ms stagger.
```

Count-up

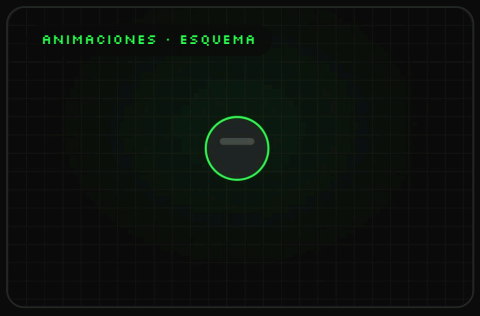
61

Le dicen: los números que suben

Las cifras cuentan desde cero hasta el valor cuando aparecen. "+12.000 clientes".

PROMPT

```
Count-up animation for stats: numbers animate from 0 to their value in 1.5s when scrolled into view.
```



Custom cursor

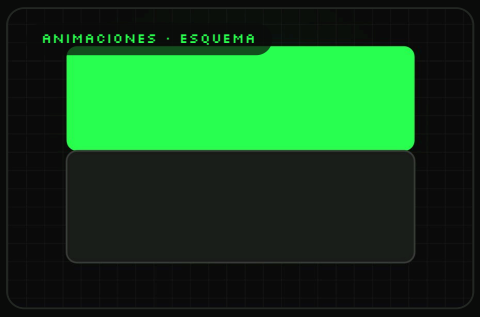
62

Le dicen: el cursor personalizado

Un cursor propio (un círculo que crece sobre los links). Funciona en portafolios, no en tiendas.

PROMPT

```
Custom cursor: small circle that follows the mouse with easing and grows with a "View" label over project images.
```



Page transition

63

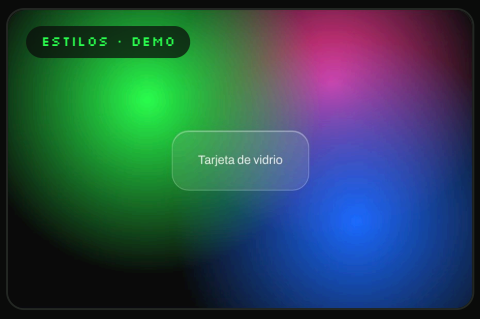
Le dicen: la transición entre páginas

Una animación al pasar de una página a otra en vez del salto en blanco.

PROMPT

```
Page transitions: a full-screen panel wipes up on navigation and reveals the next page, 600ms.
```

ESTILOS



Glassmorphism

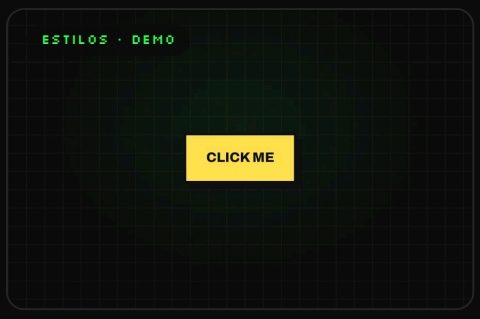
64

Le dicen: el efecto vidrio esmerilado

Tarjetas translúcidas con desenfoque detrás, como vidrio. Necesita un fondo con color.

PROMPT

```
Glassmorphism cards: translucent white 10% fill, 20px backdrop
blur, 1px light border, over a colorful gradient background.
```



Neo-brutalism

65

Le dicen: el estilo crudo y llamativo

Bordes negros gruesos, sombras duras sin desenfoque, colores fuertes. Atrevido y juvenil.

PROMPT

```
Neo-brutalist style: thick 3px black borders, hard offset shadows
with no blur, bold flat colors, chunky type.
```

Swiss style

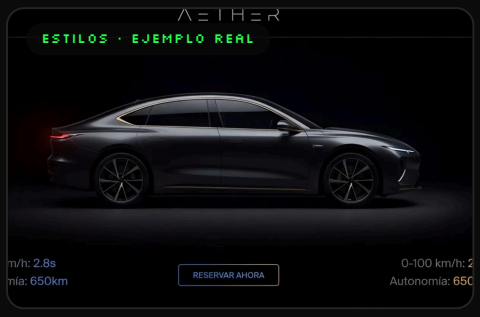
66

Le dicen: el diseño suizo

Retícula estricta, tipografía grande sin serifa, mucho espacio y cero adornos.

PROMPT

```
Swiss international style: strict grid, large sans-serif headlines,
flush-left text, lots of whitespace, red or black accent only.
```



Dark mode premium

67

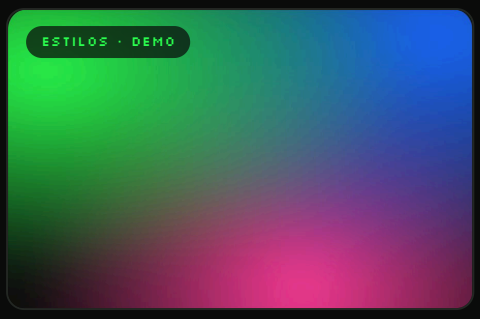
Le dicen: oscuro y elegante

Fondo casi negro (no negro puro), textos en gris claro y un solo color de acento.

PROMPT

```
Premium dark mode: #0B0B0C background, #EDEDED text, one accent
color, subtle 1px borders, soft glows only on key elements.
```

ESTILOS



Mesh gradient

68

Le dicen: el degradado que parece líquido

Un degradado de varios colores mezclados de forma orgánica. Moderno y suave.

PROMPT

```
Animated mesh gradient background with 4 soft blending colors and slow movement.
```

Grain texture

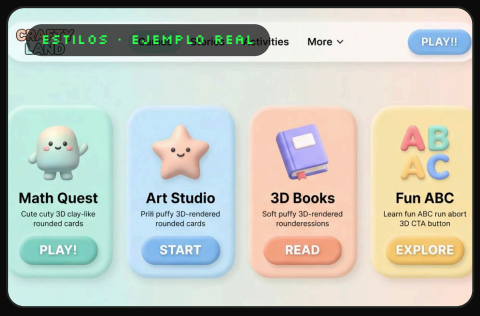
69

Le dicen: el granito de película

Una capa sutil de ruido sobre el diseño. Quita lo "plano" y lo hace sentir más analógico.

PROMPT

```
Add a subtle film grain noise overlay at 6% opacity over the whole page.
```



Claymorphism

70

Le dicen: el estilo de plastilina

Elementos inflados, redondeados y suaves, como de plastilina 3D. Ideal para apps amigables.

PROMPT

```
Claymorphism UI: puffy rounded shapes, soft inner and outer shadows, pastel colors, 3D clay icons.
```

Editorial

71

Le dicen: el estilo de revista

Tipografías serif grandes, fotos protagonistas y composición de revista.

PROMPT

```
Editorial magazine style: large serif headlines, full-bleed photography, pull quotes and multi-column text.
```

02

Prompts por rubro

Elige tu rubro, copia y pega. Cada prompt arma la web o la app completa.

WEB PARA Café

Solo copia y pega. En blanco, lo propio de este rubro. En gris, las preguntas que te hace la IA y las reglas de base.

DESKTOP · 1920 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. Design a landing page for my specialty coffee shop. Premium dark style with warm photography. Full-screen video hero of coffee being poured. Bento grid for the menu with photos and prices. Zigzag section telling the origin story of the beans. Infinite marquee with customer reviews. Map with opening hours. Serif headlines with a clean sans-serif body. Desktop canvas 1920px wide, 12-column grid with 80px side margins, 8px spacing system, max 2 typefaces, one accent color from my palette. Always include: sticky header with logo, max 5 links and one primary CTA; a hero with a benefit-driven headline (max 8 words), subheadline and CTA; social proof near the CTA; the sections listed above; a final CTA band; a footer with contact, social links and legal. Hover and pressed states on every interactive element, WCAG AA contrast, realistic photography (describe each image), no lorem ipsum: write real copy in Spanish for my business.

MOBILE · 390 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. Mobile landing page for my specialty coffee shop: autoplay muted video hero, menu as horizontal chips (Café, Pastelería, Brunch) with cards below, swipeable reviews, tap-to-call and "Cómo llegar" buttons, sticky "Ver menú" bar. Mobile frame 390px wide, single column, 16px side margins, thumb-friendly 48px buttons, hamburger menu that opens a full-screen overlay, sticky bottom CTA bar after the hero, images cropped for vertical screens, same copy and design system as desktop. No lorem ipsum: real copy in Spanish for my business.

WEB PARA Restaurante

Solo copia y pega. En blanco, lo propio de este rubro. En gris, las preguntas que te hace la IA y las reglas de base.

DESKTOP · 1920 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. **Landing page for my restaurant. Dark warm palette with cinematic food photography. Video hero with a "Reservar mesa" primary button. Menu in tabs (Entradas, Principales, Postres). Pinned section where the chef story stays fixed while dish photos scroll. Reviews with stars. Reservation form with date and party size picker. Elegant serif + sans pairing.** Desktop canvas 1920px wide, 12-column grid with 80px side margins, 8px spacing system, max 2 typefaces, one accent color from my palette. Always include: sticky header with logo, max 5 links and one primary CTA; a hero with a benefit-driven headline (max 8 words), subheadline and CTA; social proof near the CTA; the sections listed above; a final CTA band; a footer with contact, social links and legal. Hover and pressed states on every interactive element, WCAG AA contrast, realistic photography (describe each image), no lorem ipsum: write real copy in Spanish for my business.

MOBILE · 390 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. **Mobile restaurant site: sticky "Reservar" bottom bar, menu as accordion by category with prices, dish photos in a horizontal carousel, reservation flow in a bottom sheet with date, time chips and party size.** Mobile frame 390px wide, single column, 16px side margins, thumb-friendly 48px buttons, hamburger menu that opens a full-screen overlay, sticky bottom CTA bar after the hero, images cropped for vertical screens, same copy and design system as desktop. No lorem ipsum: real copy in Spanish for my business.

WEB PARA Gym

Solo copia y pega. En blanco, lo propio de este rubro. En gris, las preguntas que te hace la IA y las reglas de base.

DESKTOP · 1920 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. Landing page for my boutique gym. High-energy dark style with one neon accent. Hero with a slow-motion training video. Logo cloud of partner brands. Bento grid of classes with schedules. Pricing with 3 plans, the middle one "Más elegido", monthly/yearly toggle. Trainer cards with hover reveal. Count-up stats (members, classes per week). FAQ accordion. Condensed bold headlines. Desktop canvas 1920px wide, 12-column grid with 80px side margins, 8px spacing system, max 2 typefaces, one accent color from my palette. Always include: sticky header with logo, max 5 links and one primary CTA; a hero with a benefit-driven headline (max 8 words), subheadline and CTA; social proof near the CTA; the sections listed above; a final CTA band; a footer with contact, social links and legal. Hover and pressed states on every interactive element, WCAG AA contrast, realistic photography (describe each image), no lorem ipsum: write real copy in Spanish for my business.

MOBILE · 390 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. Mobile gym site: classes as a horizontal day picker with time slots, pricing as swipeable cards with the middle plan highlighted, sticky "Prueba gratis" bar, trainers as avatar carousel. Mobile frame 390px wide, single column, 16px side margins, thumb-friendly 48px buttons, hamburger menu that opens a full-screen overlay, sticky bottom CTA bar after the hero, images cropped for vertical screens, same copy and design system as desktop. No lorem ipsum: real copy in Spanish for my business.

WEB PARA Portafolio

Solo copia y pega. En blanco, lo propio de este rubro. En gris, las preguntas que te hace la IA y las reglas de base.

DESKTOP · 1920 PX

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. Personal portfolio for my creative work. Minimal off-white background, typographic hero with an oversized extra-wide headline, custom cursor that becomes a "Ver" circle over projects. Asymmetric broken-grid gallery with hover image reveal. About section with a pinned photo. Text reveal animations on headings. Contact with a big email link. Desktop canvas 1920px wide, 12-column grid with 80px side margins, 8px spacing system, max 2 typefaces, one accent color from my palette. Always include: sticky header with logo, max 5 links and one primary CTA; a hero with a benefit-driven headline (max 8 words), subheadline and CTA; social proof near the CTA; the sections listed above; a final CTA band; a footer with contact, social links and legal. Hover and pressed states on every interactive element, WCAG AA contrast, realistic photography (describe each image), no lorem ipsum: write real copy in Spanish for my business.

Design my travel planner app. Core screens: destination search with autocomplete; destination page with photo carousel and info chips; itinerary as a vertical timeline by day; map view; budget tracker; saved trips and sharing. Include everything a real app needs: splash screen with logo; 3-step onboarding with illustrations; sign up and log in (email, Google and Apple) with password recovery; home; the core screens described above; search with filters; notifications list; profile and settings (account, notifications, privacy, dark mode, help, log out); bottom tab bar with 4–5 items; empty states with a friendly illustration and a CTA; loading skeletons; error states with retry; success toasts; confirmation dialogs for destructive actions. Design system: iPhone 390×844 frames, 8px spacing, 44px minimum touch targets, one accent color from my palette, light and dark mode, consistent icon set (Lucide), real copy in Spanish (no lorem ipsum).

PANTALLA CLAVE

Before you start, ask me these 3 questions and wait for my answers: 1) What is my brand name? 2) What are my brand colors (or should you propose a palette)? 3) What is my industry and what exactly do I sell? Use my answers everywhere below. Key screen of my travel app: destination page with full-bleed photo, title overlay, chips (clima, presupuesto, días) and a sticky "Planear viaje" button. Show the screen in light and dark mode, iPhone 390×844, with all its states: default, loading skeleton, empty and error. Real copy in Spanish.

03

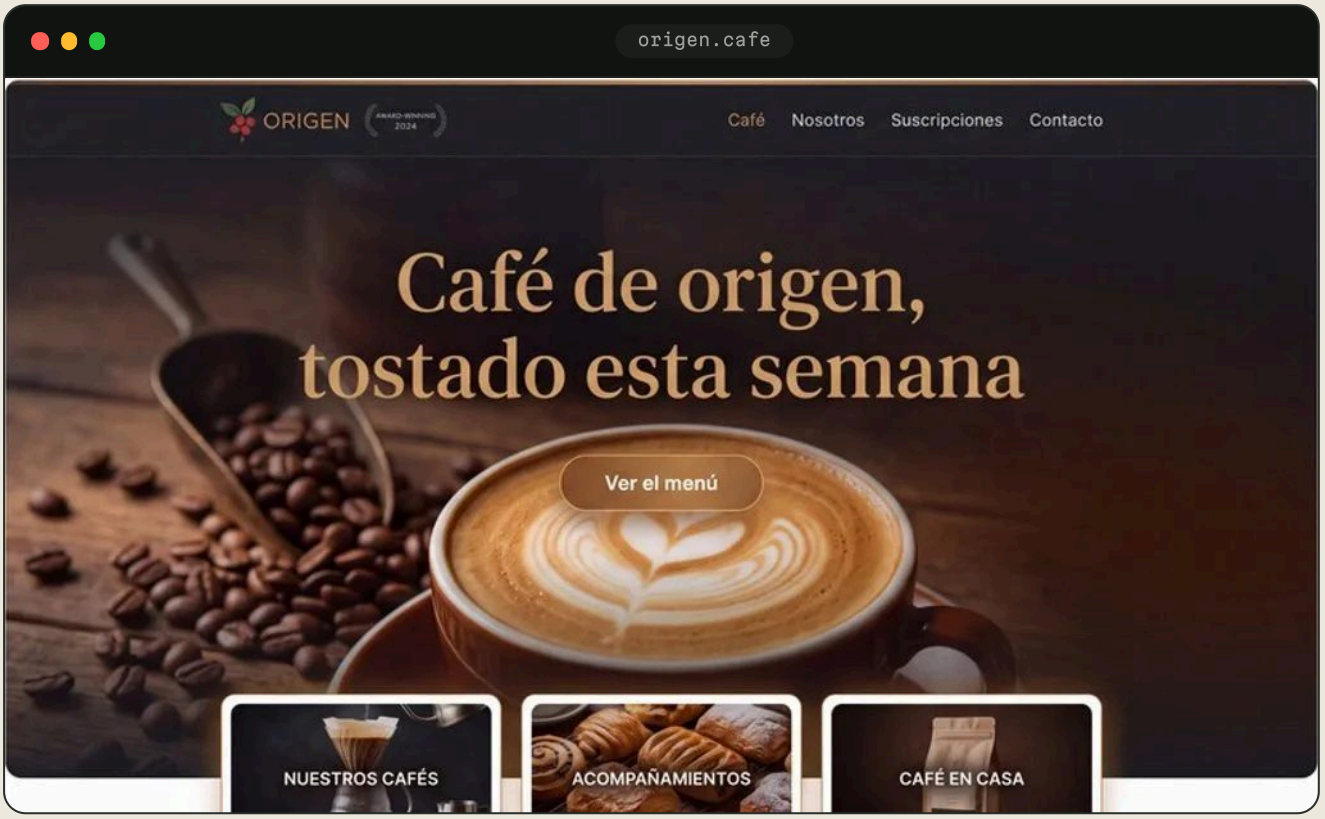
Cómo se arma un prompt

Un prompt bueno no es largo: tiene estas 6 piezas.

prompt.md — tucreador_

```
$ Diseña una landing page
para una cafetería de especialidad dirigida a jóvenes profesionales.
Estilo oscuro premium, con fotografía cálida.
Hero con video, bento grid para el menú y reseñas en un marquee.
Acento verde oliva, títulos en serif y texto en sans.
Desktop a 1920 px y mobile a 390 px.
```

// 01 qué_es # El tipo de pieza: web, app, sección o pantalla.	**// 02 para_quién** # Tu rubro y tu público. Cambia todo el resultado.	**// 03 estilo** # Cómo se tiene que sentir. Usa nombres de estilos.
// 04 estructura # Las secciones, con su nombre real del diccionario.	**// 05 detalles** # Colores, tipografía, botones y estados.	**// 06 pantalla** # Dónde se va a ver. Si no lo dices, la IA adivina.



Esto es lo que sale con ese prompt.

5 REGLAS PARA PEDIR MEJOR

01 NOMBRA LAS COSAS

hazme unos cuadritos de distintos tamaños con mis productos

IA ¿Te refieres a un bento grid? Cuando usas el nombre real no tengo que adivinar tamaños, espacios ni orden. Para eso está el diccionario.

MEJOR PÍDELO ASÍ

```
Bento grid con 6 productos: una tarjeta grande destacada y 5 chicas, esquinas de 24 px.
```

02 DA CONTEXTO

hazme una web profesional

IA ¿Profesional para quién? Una web de abogados no se ve como una de sushi. Dime tu rubro, a quién le vendes y qué quieres que hagan al entrar.

MEJOR PÍDELO ASÍ

```
Web para mi estudio de abogados laborales. Público: trabajadores de 25 a 50 años. Objetivo: que agenden una consulta gratis.
```

03 MUESTRA REFERENCIAS

que se vea moderna y bonita

IA "Bonita" es distinto para cada persona. Súbeme 2 o 3 capturas de webs que te gusten y dime qué tomar de cada una.

MEJOR PÍDELO ASÍ

```
[captura1.png] [captura2.png] Toma la tipografía de la primera y el hero con video de la segunda.
```

04 ITERA POR PARTES

ahora cambia todo: colores, textos, secciones y que sea para celular

IA Si cambio todo a la vez, se rompe lo que ya estaba bien. Vamos por partes: primero la estructura, después el estilo y al final los detalles.

MEJOR PÍDELO ASÍ

```
Paso 1: solo la estructura de secciones. Cuando la apruebe, pasamos a colores y tipografía.
```

05 DI LO QUE NO QUIERES

que no se vea hecha con IA

IA Dime exactamente qué evitar y lo evito. Lo que delata a una web hecha con IA casi siempre es lo mismo.

MEJOR PÍDELO ASÍ

```
Sin degradados morados, sin fotos de stock de gente sonriendo y sin emojis en los títulos.
```

04

La fórmula nivel 100

Elige una opción de cada fila y rellena la plantilla.

QUÉ ES	**Landing page** · Tienda online · Portafolio · Web de software · App móvil
ESTILO	**Oscuro premium** · Minimal suizo · Revista editorial · Neobrutalista · Vidrio (glassmorphism)
ESTRUCTURA	**Cuadritos (bento grid)** · Mitad y mitad (split) · Zigzag · Desordenado (broken grid) · Una columna
PORTADA	**Con video** · Solo letras gigantes · Con mockup del producto · Foto de borde a borde
MOVIMIENTO	**Aparecen al bajar** · Texto que se desliza · Profundidad (parallax) · Se mueve con el scroll · Microinteracciones
PANTALLA	**Compu 1920 px** · Celular 390 px · Ambas

plantilla

Diseña [QUÉ ES] con estilo [ESTILO]. Usa un layout [ESTRUCTURA] y un [PORTADA], con un titular que diga el beneficio en máximo 8 palabras y un solo botón principal. Agrega [MOVIMIENTO]. Usa una grilla de 12 columnas, espaciados múltiplos de 8 px, máximo 2 tipografías y un solo color de acento. Incluye estados hover y presionado en cada botón. Pantalla: [PANTALLA].

EJEMPLO CON LO MARCADO EN VERDE

PROMPT

Diseña una landing page con estilo oscuro premium. Usa un layout bento grid y un hero con video, con un titular que diga el beneficio en máximo 8 palabras y un solo botón principal. Agrega animaciones de aparición al hacer scroll. Usa una grilla de 12 columnas, espaciados múltiplos de 8 px, máximo 2 tipografías y un solo color de acento. Incluye estados hover y presionado en cada botón. Pantalla: desktop a 1920 px.

05

Fotos de producto

Súbele a la IA una foto de tu producto y cambia [PRODUCT] por lo que vendes.

COMIDA

Mesa de café

PROMPT

```
[PRODUCT] on crumpled parchment paper on a marble café table by a sunny window, hard window shadows, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Para llevar

PROMPT

```
[PRODUCT] in a takeout box held on a city sidewalk at golden hour, blurred street behind, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Picnic

PROMPT

```
Top-down picnic flat lay with [PRODUCT] on a linen cloth, drinks and scattered napkins, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Diner con flash

PROMPT

```
[PRODUCT] in a moody diner booth at night, neon reflection on the table, direct flash, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Corte al medio

PROMPT

```
[PRODUCT] cut in half showing its layers on a vintage ceramic plate, soft daylight, minimal styling, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Con amigos

PROMPT

```
Friends' hands reaching for [PRODUCT] on a crowded wooden table, warm evening light, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

COMIDA · 2

Balcón al sol

PROMPT

[PRODUCT] on a sunny balcony table with a drink and sunglasses, harsh summer sun, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Detalle cercano

PROMPT

Close-up detail of [PRODUCT] with shallow depth of field, cream background, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Retro 90s

PROMPT

[PRODUCT] on a retro checkered tray with a milkshake, 90s diner aesthetic, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

BEBIDAS

Ventana con sol

PROMPT

[PRODUCT] on a sunny windowsill with sheer curtains and dappled shadows, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Contra el cielo

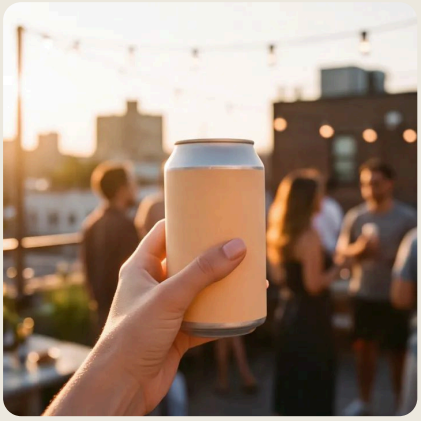
PROMPT

Hand holding [PRODUCT] against a clear blue sky by the beach, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Bandeja de verano

PROMPT

Top-down [PRODUCT] on a rattan tray with sliced oranges and a straw hat, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.



Fiesta en terraza

PROMPT

[PRODUCT] in a hand at a summer rooftop party, golden hour bokeh, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Borde de piscina

PROMPT

[PRODUCT] on a tiled poolside edge with water reflections and hard sun, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Picnic con hielo

PROMPT

[PRODUCT] in a vintage ice bucket with crushed ice at a garden picnic, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

BEBIDAS · 2

Road trip

PROMPT

[PRODUCT] on a car dashboard during a road trip, sunset through the windshield, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Cocina minimal

PROMPT

[PRODUCT] on a minimalist beige kitchen counter next to a ceramic vase, morning light, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Domingo en la cama

PROMPT

[PRODUCT] on a bed with linen sheets, a book and sunglasses, lazy Sunday mood, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

ROPA

Selfie al espejo

PROMPT

```
Mirror selfie of a young woman wearing [PRODUCT] in a minimalist bedroom, phone covering her face, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Cama deshecha

PROMPT

```
[PRODUCT] folded on an unmade bed with linen sheets, a coffee cup and a book, morning light, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Street style

PROMPT

```
Young man wearing [PRODUCT] crossing a European street, candid mid-stride, overcast light, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

En la silla

PROMPT

```
[PRODUCT] hanging on a wooden chair in a sunlit room with plants, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Flat lay outfit

PROMPT

```
Outfit flat lay on a wooden floor: [PRODUCT] with wide jeans, white sneakers, tote bag and sunglasses, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

Detalle de otoño

PROMPT

```
Close-up of hands in the pocket of [PRODUCT] holding a coffee, autumn leaves, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.
```

ROPA · 2

Atardecer con flash

PROMPT

Woman wearing [PRODUCT] sitting on a car hood at sunset, direct flash, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Tienda concepto

PROMPT

[PRODUCT] on a clothing rail in a cozy concept store with warm lights, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Playa en invierno

PROMPT

Couple wearing [PRODUCT] laughing on a beach in winter, grainy film look, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

COSMÉTICA

Estante de baño

PROMPT

[PRODUCT] on a travertine bathroom shelf with a towel and sunlight streaming in, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

En la mano

PROMPT

Hand with neat nails holding [PRODUCT] near a glowing face, soft focus, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Bandeja de tocador

PROMPT

Top-down [PRODUCT] on a vanity tray with gold rings, a perfume and a hair clip, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Después de la ducha

PROMPT

[PRODUCT] in a bathroom with green tiles and water droplets after a shower, steam, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Sábanas de mañana

PROMPT

[PRODUCT] on white bed sheets with morning light and a silk scrunchie, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Ventana con limón

PROMPT

[PRODUCT] beside a glass of water with lemon on a sunny windowsill, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

COSMÉTICA · 2

Neceser

PROMPT

[PRODUCT] in an open makeup bag with lip gloss and a mirror on a marble counter, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Rincón spa

PROMPT

[PRODUCT] on a wooden stool next to a fluffy towel and eucalyptus in a spa-like bathroom, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

Contra el cielo

PROMPT

[PRODUCT] held up against a bright blue sky with sunlight through the glass, shot on 35mm film, natural light, soft grain, candid Pinterest aesthetic, ultra realistic.

TECNOLOGÍA

Floating void

PROMPT

[PRODUCT] levitating over a pure black background with a soft spotlight, premium tech ad.

Horizon glow

PROMPT

[PRODUCT] on a dark surface with a glowing blue-violet horizon line of light behind it.

CGI waves

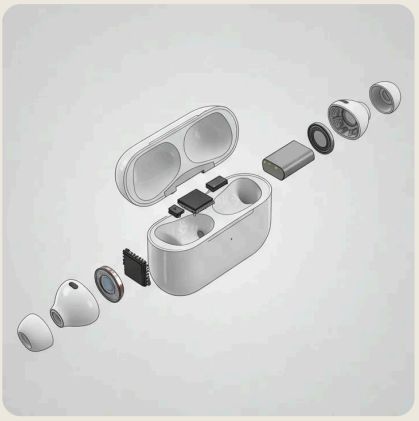
PROMPT

[PRODUCT] resting on smooth flowing 3D wave shapes in silver and lilac, CGI render look.

Light band

PROMPT

A single thin horizontal band of white light reflecting across glossy [PRODUCT] on black.



Exploded view

PROMPT

Exploded view of [PRODUCT] with its components floating apart in order, technical render, light gray background.

Escritorio

PROMPT

[PRODUCT] on a minimal wooden desk next to a laptop and coffee, soft morning light.

TECNOLOGÍA · 2

Macro

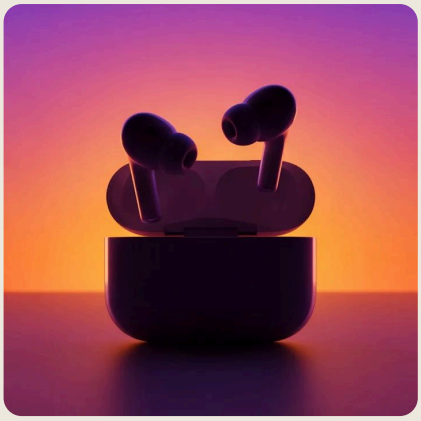
PROMPT

Extreme macro close-up of [PRODUCT] showing material and glossy surface details.

Cyberpunk

PROMPT

[PRODUCT] with magenta and cyan neon reflections on a wet dark surface, cyberpunk mood.



Contraluz de color

PROMPT

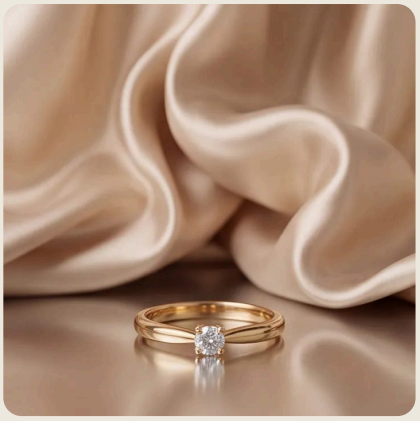
[PRODUCT] silhouette backlit by an orange-to-purple color gradient, dramatic.

JOYERÍA

Terciopelo

PROMPT

[PRODUCT] resting on deep emerald green velvet, soft spotlight, luxury jewelry photography.



Seda

PROMPT

[PRODUCT] in front of champagne silk fabric frozen in motion, elegant studio light.

Arena y piedras

PROMPT

[PRODUCT] on fine sand with smooth pebbles, natural warm light.

Puesto

PROMPT

A woman's elegant hand wearing [PRODUCT], neutral background, soft light.

Gotas de agua

PROMPT

[PRODUCT] with fresh water droplets on a dark glossy surface, side light.

Macro brillo

PROMPT

Extreme close-up of [PRODUCT] with sharp sparkles and bokeh.

JOYERÍA · 2

Mesita de noche

PROMPT

[PRODUCT] resting in a small vintage ceramic trinket dish on a linen bedside table, soft morning light, dried flowers, film grain, candid Pinterest aesthetic.

Sombra dura

PROMPT

[PRODUCT] on a white surface under hard sunlight with a long graphic shadow.

Pétalos

PROMPT

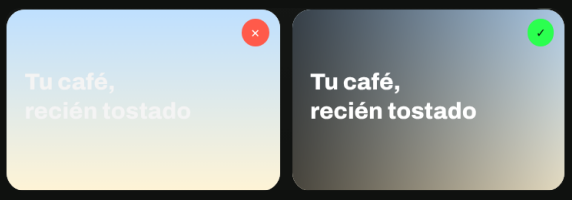
[PRODUCT] among soft pink rose petals, romantic pastel light.

06

Errores que delatan

A la izquierda el error, a la derecha el arreglo.

01 Texto que no se lee

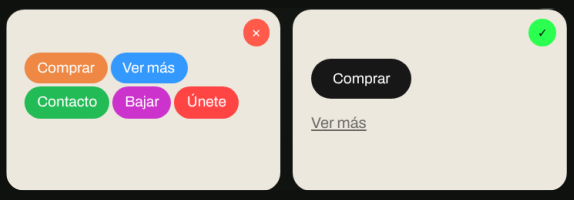


Arreglo: Pon una capa oscura detrás del texto.

PROMPT

```
Add a dark gradient overlay (black 0% to 60%)
behind the hero text so it meets WCAG AA
contrast on any photo.
```

02 Cinco botones peleando

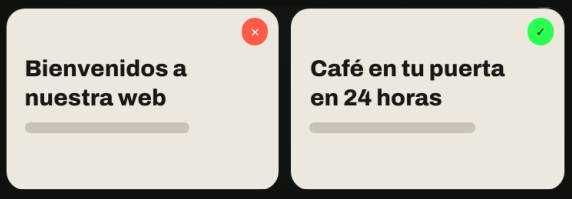


Arreglo: Un solo botón principal. El resto, links.

PROMPT

```
Use only one primary CTA per section; make
secondary actions ghost buttons or text
links.
```

03 "Bienvenidos a nuestra web"



Arreglo: Un titular que diga qué ganas tú.

PROMPT

```
Rewrite the hero headline as a specific
customer benefit in under 8 words, no
"welcome" or company name.
```

04 Cuatro tipografías

Arreglo: Máximo dos: títulos y texto.

PROMPT

```
Use a maximum of 2 typefaces: one display
font for headings and one sans-serif for body
text, with a clear type scale.
```

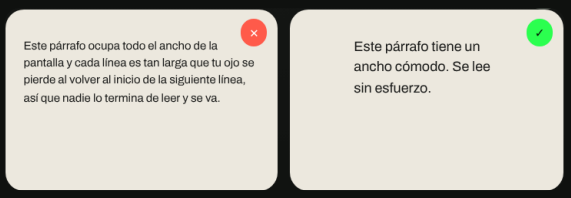
05 Espacios al azar

Arreglo: Usa múltiplos de 8: 8, 16, 24, 32...

PROMPT

```
Use an 8px spacing system for all paddings,
margins and gaps; section spacing 120px on
desktop, 64px on mobile.
```

06 Líneas eternas

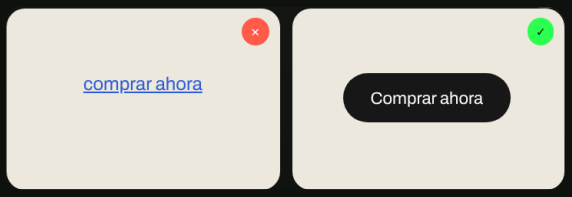


Arreglo: 60 a 75 caracteres por línea.

PROMPT

```
Limit body text width to 65 characters per
line (max-width 680px) with line-height 1.6.
```

07 Botón que no parece botón

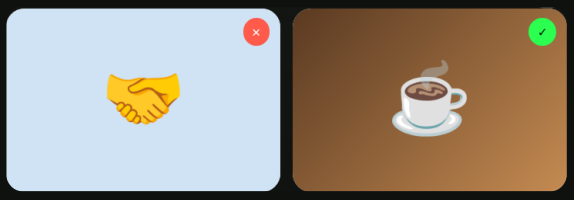


Arreglo: Forma, color y estado al pasar el mouse.

PROMPT

```
Make buttons look tappable: 48px height,
solid fill, 12px radius, hover and pressed
states, minimum 44px touch target.
```

08 Foto de stock genérica

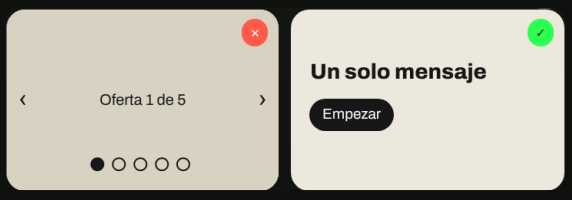


Arreglo: Tu producto y tu gente reales.

PROMPT

```
Replace generic stock photos with real
product shots and behind-the-scenes photos in
one consistent lighting style.
```

09 Carrusel en el hero

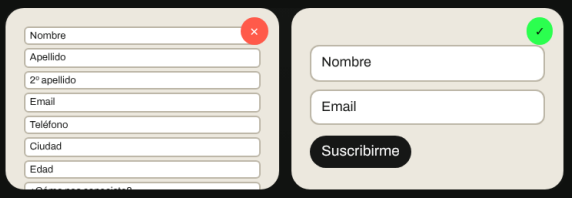


Arreglo: Un mensaje fijo y fuerte.

PROMPT

```
Replace the auto-rotating hero slider with a
single static hero: one message, one image,
one CTA.
```

10 Formulario eterno

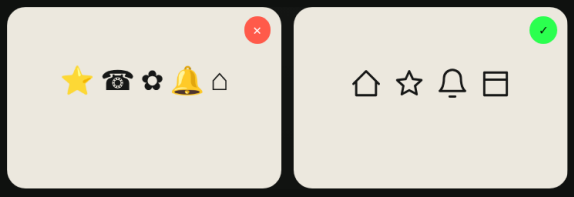


Arreglo: Pide solo nombre y email.

PROMPT

```
Reduce the form to the essential fields only
(name and email), single column, inline
validation, clear button label.
```

11 Íconos mezclados

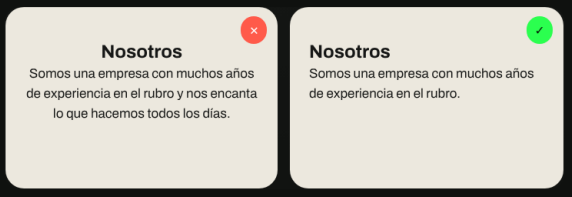


Arreglo: Un solo set, mismo grosor.

PROMPT

```
Use a single icon set (e.g. Lucide) with
consistent 1.5px stroke and 24px size across
the whole site.
```

12 Todo centrado



Arreglo: Centra solo títulos cortos.

PROMPT

```
Left-align body text and lists; center only
short headlines and single-line CTAs.
```

07

10 reglas para que venda

Si tu web cumple estas 10, ya está por encima del promedio.

01

Que se entienda qué vendes en 5 segundos.

PROMPT

```
Rewrite the hero so a first-time visitor understands what it is, who it is for and why it is better in 5 seconds.
```

02

Un solo botón principal por sección.

PROMPT

```
Use only one primary CTA per section; make secondary actions ghost buttons or text links.
```

03

Las reseñas, al lado del botón de comprar.

PROMPT

```
Place social proof (rating, review count and avatar stack) directly next to the primary CTA.
```

04

Habla de lo que gana el cliente, no de tu producto.

PROMPT

```
Rewrite each feature as a customer benefit headline, with the technical feature as supporting text.
```

05

Tres precios, y el del medio destacado.

PROMPT

```
Pricing section with 3 plans, the middle one highlighted as "Most popular", monthly/yearly toggle showing the yearly saving.
```

06

Responde las dudas antes de que pregunten.

PROMPT

```
Write an FAQ accordion answering the top 6 purchase objections: price, shipping, returns, time, support, results.
```

07

En el celular, el botón de comprar siempre visible.

PROMPT

```
On mobile, add a sticky bottom CTA bar that appears after the hero scrolls out of view.
```

08

Letra que se lea: buen contraste y buen tamaño.

PROMPT

```
Ensure all text meets WCAG AA contrast (4.5:1 for body, 3:1 for large text) and body text is at least 16px.
```

09

Botones grandes, fáciles de tocar con el dedo.

PROMPT

```
All tap targets on mobile at least 44×44px with 8px spacing between them; buttons 48px tall with clear hover and pressed states.
```

10

Que cargue rápido.

PROMPT

```
Optimize for speed: WebP images, lazy loading below the fold, skeleton loaders instead of blank states.
```

08

Prueba tus apps en 20 teléfonos con IA

Repositorio integrado en Nivel 3 de **TuCreador Studio** (destacado por @bald.devs): **pierridotite/mobile-agent-testers** (MIT · 1.9k★). Lanza agentes autónomos en simuladores Android e iOS en paralelo usando runners gratis de GitHub Actions y entrega capturas, pasos y alertas reales de accesibilidad sin escribir scripts.

20
Teléfonos/Tablets paralelos (10 Android + 10 iOS)

14
Idiomas + árabe RTL + texto al 200% + Dark/Light

≥48dp
Chequeo a11y.py de área táctil y nombre accesible

$0 CI
Runners gratis GitHub + reportes cifrados RSA/AES

CASO REAL · DEMO MANDADO (SCRIPTS/A11Y.PY)

github.com/pierridotite/mobile-agent-testers

ANTES · 2 AVISOS EN 1 CASILLA

Control de Aguacate roto en móvil

- Tamaño medido: 24 × 24 px (menor a 48dp / 44pt).
- Nombre accesible: vacío (---), invisible para lectores y agentes.
- Resultado: el toque en pantallas 360px/390px falla o no guarda.

DESPUÉS · CORREGIDO Y RE-VALIDADO

Target 48×48 + "Marcar Aguacate"

- Área táctil ampliada: 48 × 48 px + nombre accesible explícito.
- Repetición exacta: re-tocado en las mismas coordenadas en 360px ✓ y 390px ✓.
- Resultado: marca guardada en ambos anchos con 0 errores a11y.

INSTALACIÓN CLI + PLUGIN CLAUDE CODE (COPIABLE EN 1 CLIC EN TUCREADOR STUDIO):

```
gh repo create my-testers --public --template pierridotite/mobile-agent-testers --clone && cd my-testers && ./setup.sh
/plugin marketplace add pierridotite/mobile-agent-testers | /plugin install mobile-agent-testers@mobile-agent-testers
```

01 · 5 MODOS DE PRUEBA SIN SCRIPTS

Cómo recorren tu app los agentes IA

1. Exploratorio: cada persona usa tu app como usuario nuevo y entrega `report.md` con capturas numeradas.

2. Flujo E2E (brief): guía flujos críticos (pagos, reservas, persistencia tras cerrar app).

3. Reproducir bug: `briefs/reproduce.md` confirma sí/no/incierto por dispositivo.

4. Mejoras UX: `briefs/improve.md` prioriza fricciones por impacto real.

5. Comparativa A/B: `scripts/compare.py` compara dos ramas lado a lado.

02 · STACKS Y SEGURIDAD DE REPORTES

Compatible con todo el ecosistema móvil

Frameworks: Flutter, React Native, Expo, Android (Kotlin/Gradle), iOS (Swift/Xcode), KMP, Capacitor, .NET MAUI o `apk_url/ios_app_url`.

Privacidad en repos públicos: reportes y capturas cifrados con **RSA + AES-256-GCM**; solo tú descifras localmente con `bash scripts/collect.sh <run_id>`.

Benchmarks reales: LocalSend (46 bugs en 20 teléfonos, $4.62) · AnkiDroid (43 hallazgos, <10 min).

09

Deja de programar a ciegas (94k★)

Repositorio integrado en Nivel 3 de **TuCreador Studio** (destacado por @skillpedia.es): **Egonex-AI/Understand-Anything** (MIT · 94.3k★ · v2.9.8). Convierte cualquier código en un grafo de conocimiento interactivo (archivos, funciones, quién llama a quién), muestra qué puede romperse antes de editar y genera la guía de onboarding del equipo.

Las 24 Skills maestras 1-Clic

Todo el catálogo Open-Source integrado en **TuCreador Studio v5.0** (Nivel 3 · Skills 1-Clic) y buscable al instante con **Ctrl+K**.

SKILL / HERRAMIENTA	REPOSITORIO GITHUB	CATEGORÍA	QUÉ TRANSFORMA (ANTES → DESPUÉS)
01. Impeccable	pbakaus/impeccable	Anti-IA	Elimina look morado genérico; añade /audit y /polish.
02. Awesome DESIGN.md	VoltAgent/awesome-design-md	Anti-IA	Sistemas visuales de marcas top (Apple, Linear, Stripe).
03. Taste Skill	Leonxlnx/taste-skill	Anti-IA	Criterio estético con 3 diales: Variación, Motion y Densidad.
04. UI/UX Pro Max	nextlevelbuilder/ui-ux-pro-max-skill	Anti-IA	UX completo, jerarquía visual, conversión y accesibilidad.
05. Frontend Design	anthropics/skills	Anti-IA	Dirección de arte intencional, WCAG AA y 1 CTA claro.
06. Antislop UI & Copy	decolua/9router (PR #4506)	Anti-IA 32.8k★	Prueba de propósito, 0 clones, 0 botones muertos y copy real.
07. React Bits	DavidHDev/react-bits	UI & Motion	Componentes animados ligeros: text-reveal y tarjetas táctiles.
08. shadcn/ui	shadcn-ui/ui	UI & Motion	Componentes accesibles nivel startup en tu código (0 lock-in).
09. Magic UI	magicuidesign/magicui	UI & Motion	Bento Grids, marquesinas de reseñas y bloques SaaS pro.
10. Lucide Icons	lucide-icons/lucide	UI & Motion	+1,500 íconos SVG uniformes (1.5px) sin emojis en títulos.
11. Motion & Framer	motiondivision/motion	UI & Motion	Transiciones 60fps respetando prefers-reduced-motion.
12. GSAP & ScrollTrigger	greensock/GSAP	UI & Motion	Animación profesional 100% gratis (ScrollTrigger, SplitText).
13. Motion Signature	VKevinxz/bruma-motion-lab (TC)	Zero-Dep	7 efectos cinéticos endurecidos (<15KB, CSP estricta, 0 XSS).
14. GitHub Spec Kit	github/spec-kit	Apps & Dev	Crea SPEC.md y PLAN.md primero para programar sin caos.
15. Claude Task Master	eyaltoledano/claude-task-master	Apps & Dev	Divide apps grandes en tareas verificables paso a paso.
16. Expo (iOS/Android)	expo/expo	Apps & Dev	Convierte tu idea en app móvil nativa probada por QR.
17. Mobile Agent Testers	pierridotite/mobile-agent-testers	QA 20×	20 teléfonos IA paralelos + scripts/a11y.py (target ≥48dp).
18. Understand Anything	Egonex-AI/Understand-Anything	Mapas 94k★	Grafo visual de código, /understand-diff y onboarding.
19. Remotion	remotion-dev/remotion	Video IA	Videos verticales 1080×1920 por código React a MP4.
20. HyperFrames	heygen-com/hyperframes	Video IA	Renderiza escenas HTML/CSS directo a video MP4 profesional.
21. Lemo-Opuscar	lemomo-ai/lemo-opuscar	Video IA	99 direcciones visuales programáticas para video con código.
22. Claude Anim. Shorts	mromidev/claude-animated-shorts	Video IA	Shorts animados 2D/3D de 55–70s optimizados para retención.
23. earshot (252 SFX)	Leonxlnx/earshot	Audio IA	252 efectos sonoros por código sincronizados al milisegundo.
24. rea-video	JuneYaooo/rea-video	Viral IA	Deconstruye videos virales plano por plano en guion reusable.

1. CERO
Aprende a Pedir (6 piezas + 5 reglas), Diccionario 100 bloques y 51 Micro-Apps 1-clic.

2. CREADOR
ADN de Marca sincronizado, Constructor Nivel 100 + Antislop, 20 Rubros y 54 Fotos 35mm.

3. BUILDER
24 Skills 1-Clic, Full-Stack OS, Orquestador Sandbox Live y **Video Studio Pro**.

4. PRO
8 Agentes OWASP/OSV, Clon seguro al Escritorio, 12 Errores Anti-IA y `tucreador-kit/`.

12

Video Studio Pro & Ecosistema Enterprise

TuCreador Studio v5.0 en **tucreador.windowstelecom.com** integra producción automatizada de videos cortos virales (9:16 por código con Remotion + 8 Agentes), auditoría OWASP/NIST y el kit portable `tucreador-kit/` auditable por cualquier IA.

NUEVO MÓDULO · TUCREADOR VIDEO STUDIO PRO (8 AGENTES FULL-STACK) tucreador.windowstelecom.com/studio#videostudio

Multi-nicho y multi-tenant (`BrandContext` heredado de Nivel 1). Genera guiones en tabla `Tiempo | Voz | Visual` (hook sin comas ≤10 palabras, 1 solo CTA, números en letras para TTS), voz en 1 toma + timestamps ms, escenas HTML reales con scroll cuadro por cuadro, normalización **FFmpeg -14 LUFS** y cola anti-canibalización (máx. 4/día, cada 3h, etiqueta IA obligatoria).

01 BrandDNA
Hereda paleta, voz, nicho y palabras prohibidas.

02 DataIdea
Ángulos virales con datos verificables del rubro.

03 ScriptRet
Hook sin comas, ritmo ≤60s y 1 CTA final.

04 VoiceSync
Voz en 1 toma + karaoke sincronizado en ms.

05 VideoCode
React Remotion 1080×1920 + scroll HTML real.

06 GrowthLoop
Cola segura ≤4/día y memoria de métricas D+1.

07 Platform
Orquesta contratos Zod y aislamiento tenant_id.

08 AuditorPro
QA 0-100: Antislop, WCAG AA, -14 LUFS y IA ON.

Centro de 8 Agentes Auditores Defensivos (OWASP ASVS L2 · NIST SSDF · SAMM) + Clon Seguro

FASES 0 A 6

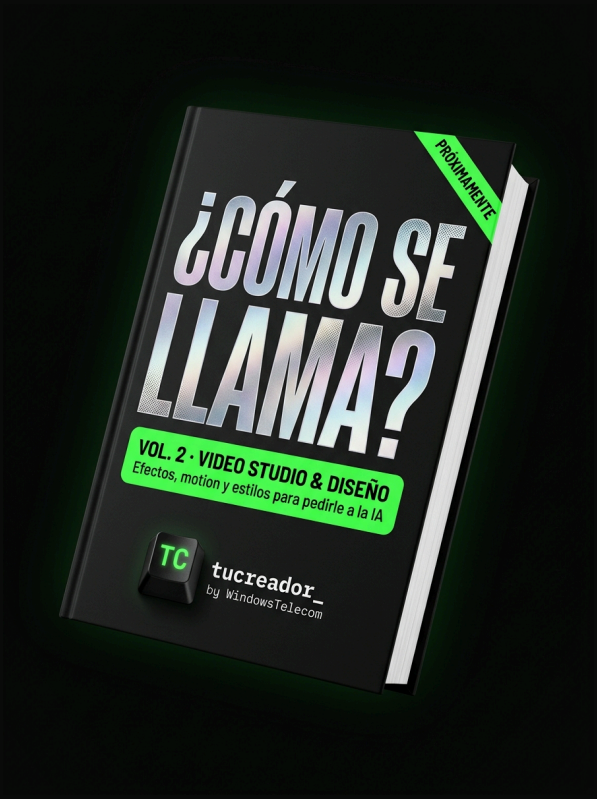
Fase 0 · Inventario & Grafo: SBOM, capas + mapa Understand Anything.
Fase 1 · Arquitectura & Impacto: RLS, CORS, blast-radius (`/understand-diff`).
Fase 2 · Código & SAST: secretos, SQLi, XSS (`innerHTML`), `eval`.
Fase 3 · Dependencias & Infra: CVEs en vivo (Google OSV.dev) + Docker/IaC.
Fase 4 · Base de Datos: índices, migraciones, consultas parametrizadas.
Fase 5 · APIs & Contratos: auth, rate limiting, validación Zod estricta.
Fase 6A · Antislop & A11Y: 0px overflow (360/390/768px), targets ≥48px, 0 botones muertos.
Fase 6B · SRE & Clon Seguro: Aplicar / Revertir por hallazgo y Rollback instantáneo.

KIT PORTABLE MAESTRO PARA AUDITORÍA CON IA (V5.0) by WindowsTelecom

tucreador-kit/TUCREADOR_MASTER_PLAYBOOK.md

Unifica esta guía visual (65 págs), los 100 Bloques, 51 Micro-Apps LATAM, 24 Skills 1-Clic, `INSTRUCCION_MAESTRA_FULL_STACK_TUCREADOR.md`, `MODULO_MOTION_SIGNATURE_TUCREADOR.md`, los contratos de `video-studio/` y la rúbrica de 25 criterios (0–100 pts).

```
PROMPT PARA AUDITAR O CONSTRUIR CON ESTE KIT:
"Lee tucreador-kit/TUCREADOR_MASTER_PLAYBOOK.md y tucreador-kit/INSTRUCCION_MAESTRA_FULL_STACK_TUCREADOR.md. Audita mi proyecto contra sus 25 criterios (Antislop UI & Copy Humano, Mapa Understand Anything, 0px overflow 360/390/768px, a11y >=48px y Seguridad OWASP ASVS L2). Entrégame puntaje 0-100 y plan en Clon seguro."
```



PRÓXIMAMENTE · VOL. 2

Video Studio & diseño gráfico

Plantillas Remotion, efectos cinéticos Motion Signature, risografía, halftone, duotono, overprint y +60 técnicas con su nombre real para pedírselas a la Inteligencia Artificial.

LA PLATAFORMA INTERACTIVA EN 4 NIVELES · TODO PARA COPIAR EN UN CLIC

tucreador.windowstelecom.com

Entra gratis a la plataforma completa para copiar los 271+ activos en 1 clic, activar las 24 Skills Open-Source, lanzar los 8 Agentes Auditores y producir tus videos virales en **TuCreador Video Studio Pro**. Si esta guía te sirvió, compártela con alguien que esté creando con IA.
